Castle Donington Conference 2024

4th and 5th October

Have you done anything really interesting this year?

Have you been involved in a new project that others would like to hear about?

Or have you been doing something for a long time that others could learn from?

If so, come and share your expertise with us at the IMI Annual Conference at Castle Donington, the Radisson Blu Hotel, East Midlands Airport on Friday 4th and Saturday 5th October 2024.

This invitation welcomes abstracts from members and non-members, which can include students and professionals working in all areas of medical illustration, the wider healthcare profession and other related areas of interest.

What we need

- If you are interested in taking part, please submit an abstract using the form below. This should include a concise (300-500 words) description of your presentation / workshop, detailing what the audience can expect to learn from the session.
- We would also like a brief biography detailing who you are, where you work, and your role and background in the field (50-100 words). Please also supply a portrait headshot (jpeg, 300 dpi).

Note

Speaking at the conference is viewed as CPD activity and contributing to the profession.

Speakers are therefore responsible for their own expenses, including registration, accommodation and travel costs. Speaking at the conference can also provide the justification for attending and lead to support from your organisation.

Suggested themes

New and novel uses of technology applied to photography, ophthalmology, video and design in healthcare

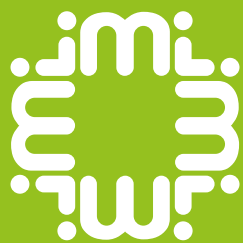

Design and illustration opportunities in medical healthcare education

Social media and its use in healthcare communications

Workflows and imaging techniques, as well as novel medical visualisation techniques

Service Improvement, leadership, professional networking, wellbeing and managing in challenging times.

This list is not exhaustive; we also welcome presentations based on traditional photography, design and video within the healthcare setting.
